1. **My company signs the subscription contract and**
 - a. Accepts the Security Policy which is an appendix: to the contract.
 - b. If PKI access is required, I have two options, either apply to cross-certification with the BoostAeroSpace bridge, or buy services from AirSecure
 - c. Commits to insert in its supplier contracts the obligation to comply with the BoostAeroSpace Security Policy

2. **I buy the Services from the Service providers**

3. **I deploy the Services**
 - ▶ AirCollab : deployment project ~ 1 month
Administration setup - User training - site creation
 - ▶ AirDesign : deployment project ~ 8 months
Process mapping - Step connector - Pilot - Deployment
 - ▶ AirSupply : deployment project ~ 12 months
Process mapping - M2M connect – Migration -Pilots - Deployment

AirCollab

- ▶ I enter into the Circle of Trust
- ▶ I appoint one BoostAeroSpace administrator
- ▶ I create the accounts and distribute certificates (can provided by EADS Trust Center)

AirDesign

- ▶ I enter into the Circle of Trust
- ▶ I sign a contract with Dassault Systèmes for implementing the PLM hub box
- ▶ I appoint one BoostAeroSpace administrator
- ▶ In case of M2M integration, I launch an integration project
- ▶ I create the account and distribute certificates (can provided by EADS Trust Center)

AirSupply

- ▶ I enter into the Circle of Trust
- ▶ I sign a contract with SupplyOn
- ▶ I appoint one BoostAeroSpace administrator
- ▶ In case of M2M integration, I launch an integration project
- ▶ I create the accounts and distribute certificates (can provided by EADS Trust Center)

Merci de répondre à main levée aux questions suivantes :
Pas du tout, Un peu, Plutôt oui, Oui tout-à-fait

- ▶ Etes vous satisfaits par la création du Hub BoostAeroSpace ?
- ▶ Etes-vous intéressés pour utiliser BoostAeroSpace avec vos fournisseurs ?
- ▶ Pour la Collaboration ?
- ▶ Pour le PLM ?
- ▶ Pour le SCM ?
